Also keep your eyes and ears open for the posters and radio ads.

### **Natalie Abdou, Youth Program with Coady International Institute**

International Ideas to Sustainability (see presentation on webpage)

### **Nicole Haverkort, Eastern Region Solid Waste Management**

3Rs, Reduce is most important, diversion from landfills (recycling) is also very important and people need to see the benefits of that. Source separation is very important to reduce costs.

The economics of recycling are great for Nova Scotians (see GPI study
